PROFESSIONAL SUMMARY

Quality Assurance Engineer with **2.5+ years of experience** in web application testing. Strong expertise in **functional, regression, exploratory, API, UI, and database testing**. Experienced in Agile environments, defect lifecycle management using JIRA, and SQL-based backend validation. Skilled in **test automation using Playwright with TypeScript**, building end-to-end automation frameworks using Page Object Model (POM). Committed to delivering high-quality, stable software releases.

KEY SKILLS

Functional Testing, Regression Testing, Smoke Testing, Exploratory Testing, API Testing, UI Testing, UAT Support, Test Case Development & Execution, Defect Tracking, JIRA, SQL Validation, Agile / Scrum, SDLC, STLC, Playwright with TypeScript, Page Object Model (POM), Git, GitHub

TECHNICAL SKILLS

- **Automation:** Python, Playwright with TypeScript
- **Testing Tools:** JIRA, Postman, VS Code
- **Database:** SQL, MySQL Workbench, Toad
- **Concepts:** SDLC, STLC, Agile/Scrum, Defect Life Cycle
- **Version Control:** Git, GitHub

PROFESSIONAL EXPERIENCE

Infosys Limited
System Associate

May 2022 – Jan 2025

- Developed and executed detailed test cases based on business and functional requirements.
- Performed functional, regression, exploratory, smoke, API, and UI testing across multiple releases.
- Identified, logged, and tracked defects using JIRA, ensuring timely resolution and quality releases.
- Conducted backend database validation using SQL queries to verify data accuracy and integrity.
- Collaborated with developers, product owners, and QA teams in Agile sprint cycles.
- Participated in UAT support and ensured production readiness before deployment.

PROJECT EXPERIENCE

GSL Bank of America

- Designed and executed 250+ test cases, ensuring strong functional and regression coverage.
- Executed 200+ regression test cases across multiple sprint cycles, improving release stability and reducing post-release defects
- Executed SQL queries for backend data validation and consistency checks.
- Maintained testing documentation and test reports for stakeholders.

Playwright End-to-End Automation Framework (TypeScript)

- Built an end-to-end automation framework using Playwright with TypeScript.
- Implemented Page Object Model (POM) design pattern for maintainable test architecture.
- Automated login, product validation, cart, and checkout workflows.
- Integrated GitHub Actions CI pipeline for automated test execution on push and pull requests.
- Handled assertions, locators, test hooks, fixtures, and cross-browser execution.

EDUCATION

Bachelor of Science in Computer Science

Government Arts and Science College (Madurai Kamaraj University)

2018 – 2021
